

LONGER SHELF LIFE, BIGGER PROFITS.

ecofrost

Modular Energy Efficient
Solar Cold Room

THE REVOLUTIONARY MODULAR SOLAR COLD ROOM

Convert any insulated room into a cold room.

A standalone cooling system designed to operate reliably in regions with challenge of quality power supply. It enables you to retain the quality of your perishable produce and can be used in a packhouse, mandi or at a farm gate. We also provide market linkages to customers through our in-house developed mobile and web application.

Ecofrost

Available in **Standard & Modular** variants

Solar Powered Thermal Storage To Operate Without Power

IOT Enabled Predictive Maintenance

Suited To Work At Collection And Distribution Points

Smart Phone Controlled

Upto 30 Hours Of Batteryless Backup

4° ~ 10° C Temperature Range

**DIFFERENT PEOPLE,
DIFFERENT NEEDS.**

Ways To Own Ecofrost:

**Upfront
Purchase**

**Lease &
Rental**

**Community
Model**

**Available Room Storage Capacity:
2 MT- 30 MT**

A platform developed in-house, it conducts predictive diagnostics with the help of Artificial Intelligence and Data Science.

Unique thermal energy based technology. Provides you low cost, battery-less backup of upto 30 hours.

Inverter Technology based refrigeration system that works efficiently, even during hours of low sunlight.

CUSTOMER TESTIMONIAL

Ecofrost cold storage facility has benefitted our FPO income immensely. We pre-cool vegetables, fruits, and flowers in cold storage which helps us to remove the field heat from the farm produce. This increases the product's shelf-life up to 1.5 times and 30% more profit.

Ecozen is an energy-focused company that designs and manufactures technology-based renewable products to build a smart and sustainable future. Ecozen is innovating at the intersection of clean tech and the Internet of Things for the agriculture sector. We believe technology and innovation have the power to bring about change. Founded in 2010 by three IIT Kharagpur graduates, took the company to unicorn status in 2023, also offering differentiated tech-based agricultural supply chain solutions.
